

Subject: Re: Request to make minor modifications to the 6th & Mesa Lot in San Pedro

From: Nancy Bower

Date: 03/03/2016 07:41 AM

To: Lorena Parker

Hi Lorena,

Please refer to the attached plans.

As a reminder, should the BID want to move forward with the project, the engineer will need a formal request with a specific work scope and drawings for the proposed work to the landscaping, irrigation, electric/plumbing pullbox, sign posts, etc. for review and approvals.

If approved, we will execute a new Revocable Permit with the BID.

Thanks,

Nancy Bower

Nancy,

Ok. We suspect that there are already pull boxes there which is why we want to see the existing plans to confirm.

Lorena,

I will forward the documents once received from our engineer.

If the BID decides to move forward after reviewing the documents, the engineer will need a specific work scope and drawings to review the proposed work to the landscaping, irrigation, electric/plumbing pullbox, sign posts, etc.

Thank you,

Nancy,

Can you please send over plans of City Lot 735 so we can determine the feasibility of adding electrical outlets?

Thank you.

Lorena,

We will need additional information to evaluate your request in addition to looping in our engineer on this project.

Please confirm that this request concerns the permit with the San Pedro Chamber of Commerce for use of the plaza area at the City Lot 735, 500 South Mesa Street, for the First Thursdays events. If so, we will need to revise the permit accordingly.

1. Please forward photos/additional information regarding the specific planter that you would like to fill in.
2. Please advise the need for the additional electrical outlets. The existing permit stipulates that the electrical usage shall not exceed 20 amperes so as to prevent a break in the circuit.

Thank you,

Nancy Bower

Nancy,

We need to add a few more electrical outlets to the corner of 6th & Mesa St. We also want to fill in one of the planters to accommodate our bands. Currently, people need to stand on the sidewalk or across the street.

I need to make this modification very soon as we have been granted a \$50,000 grant for music and need to make these minor changes in order to begin the programming.

Would the BSL be able to add the outlets?

Thank you.
